Industrial steel base with non-slip sole

Cylinder protector

## FEATURES

Durability

High quality material

Intelligent space saving

Recovery period

Ergonomic Design

280 lbs load capacity

Easy to clean

## + ERGONOMIC EXPERT'S OPINION

The **TA200** is perfect for tasks requiring frequent standing and movement, offering good temporary support (to lean on). This stand stool offers dynamic seating, allowing easy upper limbs and trunk movement.

Unlike a conventional seat, where the weight is distributed mainly on the buttocks and intervertebral discs, the **TA200** allows the seat to be tilted, helping to maintain the spine in a neutral position.

By promoting posture variety, it minimizes musculoskeletal disorder (MSD) risk factors while improving overall worker health and comfort.
